PREFACE

Manitoba government publications, 1981 is the seventh annual cumulation of the monthly checklists. Publications received in the Legislative Library during 1981 are included even though they may have a 1980 or earlier date of publication.

The arrangement is alphabetical by issuing department except for Legislative Assembly publications, executive papers, commissions of inquiry and those agencies which have been designated extra-departmental by Order-in-Council. Within the departments, arrangement is by issuing division or branch followed by the autonomous boards, commissions, etc., whose enabling statute is administered by the Minister of the Department. Autonomous agencies so listed are not to be considered as branches of the department. The arrangement of entries under the issuing agency is alphabetical by title or series title.

The indexing has been expanded to include all personal authors and responsible corporate bodies, titles, title key words, series titles and some broad subject terms, e.g., recreation, water. The corporate body entries are direct, not hierarchical, e.g., Water Resources Branch, not Department of Natural Resources. Water Resources Branch.

Prices and distributing agency are not indicated as this information was made available in the monthly checklist.
